- *requires either a 000-16061-001 ActiveImaging™ HD 3-in-1 (M/H) - SideScan Fish Reveal, OR 000-16061-001 ActiveImaging™ HD 3-in-1 (HW) - SideScan Fish Reveal transducer AND an S3100 Sonar module.

See more and catch more with the new HDS® Pro, giving you the clearest and most-detailed views with new, higher-resolution ActiveTarget® 2 Live Sonar and new, ultra high-definition Active Imaging™ HD. Our clearest sonar ever, Active Imaging™ HD delivers high-definition views of Lowrance CHIRP sonar, SideScan and DownScan Imaging™. FishReveal™ has also been expanded to be available on SideScan* and DownScan, making fish easier to identify to the sides and beneath the boat. (*Requires S3100 Module) ActiveTarget® 2 Live Sonar provides higher-resolution views of fish movement and structure. It also supports plug-and-play installation of two ActiveTarget® systems, making it possible to watch multiple views simultaneously, and to widen Front and Scout modes for better bait tracking. The ultimate clarity

The better your view, the better your fishing. From the high-definition touchscreen display to the high-level clarity of the newly-enhanced Lowrance sonar, HDS® Pro delivers a full range of meaningful underwater views that will take

your fishing experience from good to great. The SolarMAX™ HD touchscreen provides stunning images of fish, structure and chart details that are easy to see from any angle, in direct sunlight and through polarized lenses - a real difference maker on the water. See unmatched clarity on-screen with Lowrance's superior, high-resolution Active Imaging™ HD sonar and ActiveTarget® 2 Live Sonar technologies. All the chart details - preloaded

Find great fishing spots with Enhanced Embedded charts for New Zealand and Australia. Spend more time catching fish and less time finding them, thanks to the detail of C-MAP® inland and coastal charts built into HDS® Pro displays. Enhanced Embedded charts help you find ledges, drop-offs, and ditches - then they help you navigate there with precision. Complete bow to stern boat control

HDS® PRO gives you full bow-to-stern networking and expanded control of the Ultimate Fishing System, including new Ghost® Trolling Motor features like Ghost 360, Orbit Waypoint and Anchor at a Distance. With HDS® Pro at the heart of your fishing system, it's easy to customize your boat to fit the way you fish with your choice of fish-finding, navigation, network and entertainment options. HDS® PRO offers support for the complete range of top fish-finding technologies - from ActiveTarget® 2 Live Sonar and Active Imaging™ HD to touchscreen control of Power-Pole® Anchors, Ghost® Trolling Motor and more. Expand your system -- taking advantage of radar, autopilot and NMEA 2000® compatibility -- and add SiriusXM® Weather/Audio to monitor changing weather conditions and to listen to your favorite tunes. More options

The expanded options and capabilities of HDS® Pro give you more ways to customize your boat to better fit your fishing needs. Beyond the 9, 10, 12 and 16-inch screen sizes, HDS® Pro can also be expanded to deliver additional views and features. Simply add an S3100 sonar module and Active Imaging™ Transducer to enable the new FishReveal™ SideScan view, making it easier to identify fish to the sides of the boat. Anglers can also add a second ActiveTarget® system to better target fish by viewing multiple ActiveTarget 2 live sonar displays at the same time. With plug-and-play installation, expanding your fishing has never been easier.
