Hull Style		Hull Type	
Power Type		Stock Number	
Condition	New	State	New Zealand
Suburb	Whangarei	Engine Make	

### Description

The Mercury® Avator™ 7.5e electric outboard reaches speeds at an acceleration similar to a 3.5hp internal combustion outboard. This rechargeable outboard is ideal for smaller boats, tenders and can act as secondary power on sailboats. Portable and lightweight, the 7.5e is an ideal zero-emission marine motor option. Available in tiller and remote steer models with quick-connect batteries and intuitive controls for easy set-up and operation.

#### Intuitive Innovation

#### Boost Mode

Go faster with an automatic 20% more torque during hard accelerations in Boost Mode when compared to similar competitive products.

#### Corrosion Resistant

Avator Electric Outboards are engineered with Mercury's proven corrosion-preventative materials and coatings, for a confident boating experience in both saltwater and freshwater.

#### Sustainability

Transform your boating experience with no exhaust fumes and zero direct emissions from the Avator outboard range. Clean, quiet power that moves you and makes exploring effortless.

#### Easy Storage and Transport

Store your Avator confidently and conveniently with no fuel and no fumes to worry about. The quick-connect bracket makes the tiller model a snap to attach.

#### Quick-Connect Battery

With no cables to connect, the 1kwh lithium-ion battery slides securely into place under the 7.5e flip-up cowl. This conserves space inside small boats

#### Multi-Purpose Tiller Handle

A buyer should instruct his agents and/or surveyors to investigate such details buyer desires validated. This vessel is offered subject to prior sale, price change or withdrawal without notice.

---

The Avator tiller is perfect for anyone to take the helm with confidence, adjusting to accommodate the individual boater. It can be used as left or right-hand steer or folds down as a convenient carrying handle.

#### High-Efficiency Prop

The hydrodynamic durable and efficient three-blade prop is crafted of high-strength, impact-resistant composite material, optimised to help extend the battery life.

#### Engine type

- Avator

#### Input Power

- 916W

#### Rated Prop Shaft Power

- 750W

#### Rated Voltage

- 48

#### Battery

- Integrated 1kWh

#### Battery Type

- Li-Ion

#### Battery IP Rating

- IP67

#### Charger (Standard)

- 230W
